## Sunny Weather Guidelines

Now that the sunny weather has arrived, please could you help us by:

- Sending your child to school with a named sunhat - lots of children didn't have a hat today!
- Putting on sun cream before school if your child needs it. This should then last all day but if your child is particularly sensitive to the sun, or has a medical condition, please talk to the class teacher. We will be able to supervise them putting it on, but not do it for them, so some training would help!!
- Making sure your child has a water bottle
- Not sending in sunglasses - these will just get lost or broken and the children will then be upset
- Continuing to ensure your child wears sensible shoes appropriate for outdoor activities e.g. no crocs or flip flops
- Naming your child's jumper or cardigan as they take them off during the sunny weather and they all look the same!!!

Thank you  
Miss Greenway
