Taking turns...

Sharing...

Wow! What an exciting first half term we had together. We had lots of fun settling in together, finding things out about each other, our families and what we like to do in Daisies.

Team work...

Build...

We have been exploring our environment by playing in our outside area and going on Welly Walks around our school. We have been mixing colours with paint and seeing what happens when we add it to water. We have been using our physical equipment to help us build obstacle courses and even making towers bigger than ourselves.

We were very lucky to have a visit from Mrs Whittaker who came to help us look after our outside area. She showed us how to prepare the soil, create the perfect space and plant a bulb.
