

# Parsonage Farm E-Safety Charter

...only search the internet when a trusted adult is with us.

...only click on the buttons or links if we know what they do.

...be nice to people like we would on the playground.

... always ask if we get lost on the internet.

...follow an adult's instructions carefully and make sure they know what we are doing on the computer.

**When using computers and other devices we will...**

...tell an adult if we get that 'uh oh' feeling.

...keep our personal information and passwords private.

# Parsonage Farm E-Safety Charter

**We have read and agree with the charter...**
