
Translate Pages in Chrome (iPhone/iPad)

Automatically Translate a Page

1. Open Chrome on your iPhone or iPad.
2. Go to the page you want to translate.
3. At the top, tap the language you want to translate to.
4. To change the default translation language:
 - Tap **Settings** > **More languages** > choose your language.
5. Chrome will translate the page once.
6. To always translate pages in that language:
 - Tap **Settings** > **Always translate [language]**.

Manually Request Translation

If no translation option appears:

1. Tap the three dots (More) in Chrome.
2. Tap **Translate**.
3. If Translate still doesn't show up, refresh the page. Some languages may not be supported.

Translate Selected Text

- You can highlight specific text on a page to translate it.

Manage Translation Settings

- Turn translation on or off.
 - Change your default translation language.
 - Add or remove languages.
 - Undo "Always translate" for a language.
 - Manage which languages are automatically or never translated.
-
